SOPHIA AINSLIE

Sophia Ainslie is a contemporary artist working between drawing and painting. Her work focuses on the connection between diagnostic imaging technologies and landscape, interior and exterior, and the microscopic and macroscopic. She melds observation with imagination resulting in a relationship of connections and disconnections between black mark making and flat color, stillness of shape and active mark, movement and the internal space within her. Ainslie's roots lie in the counterbalancing influences of New York Expressionism and African Art. Ainslie was born in Johannesburg, South Africa, and currently resides in Arlington, MA.

Guests can experience her work in the Top of Mind Suite.
